

Stalls, Spins and Other 'Fun Things'

Chief Flight Instructor, Morris Ray leads us in an open discussion of ways pilots continue to have accidents. At the top of the list are stalls, spins and loss of control. Our focus will be on stalls and spins and best methods to recognize and avoid or recover from both. Audience interaction is encouraged. Other topics will also be discussed.

Directions: Downtown Aviation is in the large hangar at the North end of the Olive Branch Airport. From the main road turn left and follow the access road behind the T-Hangars. Downtown Aviation hangar is to the left, just past these hangars.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
